

2070 and 2130 Premier Series™
Desktop Laminators

Quality GBC lamination, now with foiling capabilities.

Exceptional Value!

GBC 2070 and 2130 Premier Series™ Desktop Laminators

Premier Series Laminators Feature:

- Adjustable speed and temperature control for superior lamination of all materials.
- Keypad control for accuracy and ease-of-use.
- Uses GBC Creative Foils for the look of foil-stamping.
- LCD readout for operator feedback.

The GBC 2130 features an extra-wide 13" throat for all document and card-size items.

The GBC 2070 features a generous 7" throat for card-size ID applications.

The clear choice in quality lamination for general office, school, and trade applications!

As the acknowledged leader in document lamination, GBC sets the standard for performance with its laminators and supplies. Now, GBC has taken another step forward with the GBC 2070 and 2130 Premier Series™ Desktop Pouch Laminators.

Offering more standard features than anything in their class, the Premier Series laminators produce outstanding results by any lamination standard. With GBC laminating pouches, they deliver uncompromised clarity and value. And nothing adds more impact or gets more attention to color output than lamination. Plus, these laminators go beyond ordinary lamination.

- Achieve exceptional results on Premium and Standard films.
- Laminate all-color or black and white materials, thin or thick stocks, with superior results.
- Laminate heat sensitive products or create signage or window displays using GBC Cool Touch™ (No-Heat) supplies.

Add the look of custom foil stamping, right at your desktop!

- Create certificates or enhance presentations using GBC Creative Foils™ for transferring metallic foils to any laser printer or copier output.

Innovative design features:

- Adjustable speed and temperature ensure superior laminating quality for every film thickness, from 3 mil to extra rigid 10 mil. Speed and temperature adjustments are easy to make using the ergonomic keypad, and the machine offers immediate feedback on the LCD readout.
- Pre-set controls eliminate the guesswork for correct settings; ideal laminating temperature and speed are set with the touch of a button. Speed and temperature can be further adjusted to maximize productivity and results.
- An extra wide 13" laminating capacity and .04" maximum material thickness allow the GBC 2130 to do more than most laminators in its class. Uses are endless... from cards to color covers, photos to posters, all are made extraordinary with the Premier Series finishing touch.
- The GBC 2070 has a generous 7" laminating capacity and the same .04" maximum material thickness. Uses include ID's, tags, small sheets and other card-size applications.
- The GBC 2070 and 2130 Premier Series laminators are built for durability and designed for safety with C/UL listing.

For professional results, simply feed item with pouch into the laminator. Note: GBC highly recommends the use of carriers for best results with all films.

SPECIFICATIONS

Product	Product Code	Product Electrical	Machine Dimensions	Machine Weight	Maximum Pouch Width	Maximum Thickness	Warm-Up Time
GBC 2070	1700690	115V, 50/60Hz	13.2"W x 9.8"D x 4.6"H	13.9 lbs	7"	.04"	2.5-8.5 min.
GBC 2130	1700660	115V, 50/60Hz	19.1"W x 9.8"D x 4.6"H	19.8 lbs	13"	.04"	2.5-8.5 min.
