

E-Kombo

Electric Punch

The world's most popular comb binding system is now available with an electric punch. The E-Kombo is ideal for companies who want an affordable, efficient system for in-house document binding. Designed for both letter and odd-sized sheets, the E-Kombo features a four-position punching depth selector, 21 selectable dies and an extra large waste drawer. The E-Kombo punches 12 sheets at a time (approximately 8,500 sheets per hour) and binds approximately 250 books per hour.

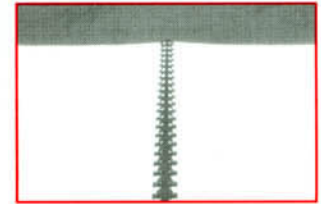

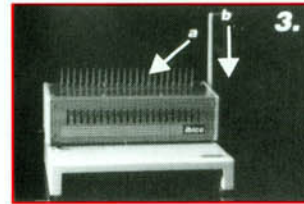

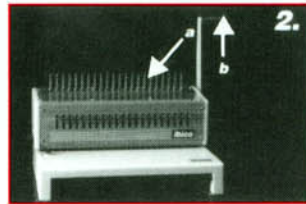

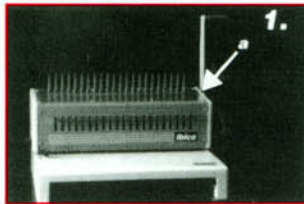

Benefits:

- Lies Flat When Opened
- Affordable
- Improves Image

Applications:

- Reports
- Proposals
- Manuals
- Training Materials
- Charts
- School Reports

The quick effective way for volume production.

Plastic comb binding with IBICO's electric system is quick, easy and effective. The result is a professional presentation which maximizes your selling power. Three quick, simple steps are all you need to finish a professional presentation. **1** Punch holes in document. **2** Set plastic comb on the binding

head and open. **3** Thread document on the comb and release. Your presentation is ready.

Any document can benefit from comb binding: sales presentations, catalogs, price lists, conference and seminar materials, and many others. The possibilities are endless!

Ibicombs and Ibicovers.

A professionally bound document paints a corporate picture by adding the finishing touch to all reports, presentations and catalogs while making your company stand ahead of the crowd. Thanks to IBICO, it's easy to achieve.

Ibico's plastic combs are round, will not lose their elasticity and are consistent in their sizes and colors. Combine IBICOMBS with matching IBICOVERS available in a broad range of colors and textures. The possibilities to customize your presentations are unlimited! (See chart below for comb sizes and covers.)
