Binding Systems

# EPK 21 Elektro Kombo

Ibico's Elektro Kombo is the perfect choice for high volume punch and bind applications. The rugged EPK21 electrically punches up to 20,000 sheets per hour, triple the capacity of manual machines. Convenient foot pedal operation speeds punching by leaving hands free for continuous sheet feeding.

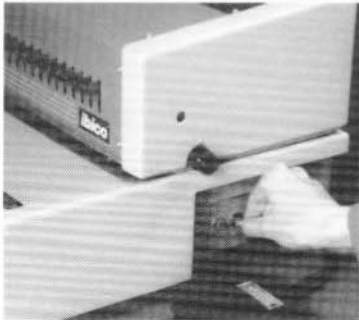

Binding is simple with an adjustable binding mechanism which locks in the comb opening setting to speed large volume binding jobs. To insure pages stay secure, turn easily and lie flat, a four-position depth selector varies the distance between the punched hole and the paper's edge from 1/16" to 3/16."

The versatile EPK 21 features 21 selectable dies and is designed to punch and bind both letter and odd-size documents up to 12" in length. Great for computer printouts, presentations, price and parts lists, manuals and more.

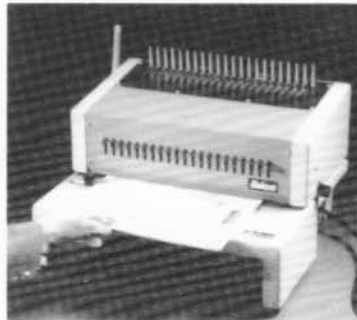

#### The EPK21 features:

- Rugged, all metal casing for increased durability
- Precision ground dies punch progressively for sharp, effortless operation
- Paper guide and ruler to accurately align sheets
- Open throat construction for punching extra-long sheets
- Easy access, front-opening waste and storage drawer
- Large work surface for fast, efficient operation
- Two-inch thick comb capacity for binding up to 425 sheets

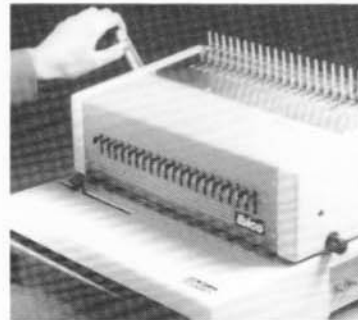

Height	Width	Depth	Weight	Production Rate
12-3/4"	19-1/4"	15-3/8"	52 lbs.	25 sheets per punch Punches 20,000 sheets/hour Binds 250 books/hour

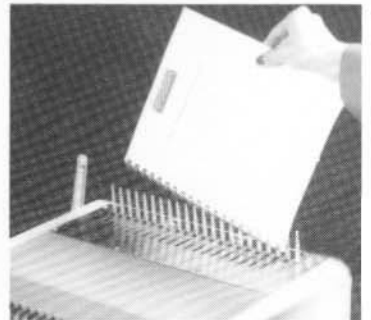

1. Turn power on. The on/off switch is located on the right side of the machine. Position the foot pedal for operation.

2. Set adjustments—paper guide, punching die pattern, punching depth selector, and comb opening mechanism. Insert sheets flush against rear stop and paper guide and activate punch with foot pedal.

3. Place binding comb behind metal teeth and spread open by pulling the handle forward.

4. Insert punched sheets face down into the open comb. Push the handle back to bind.

**Remove the professionally bound document!**

## Signature Series

CUSTOM IMPRINTED  
COVERS AND COMBS

#### Custom Options

Give presentations a look of distinction with Ibico's Signature Series custom imprinted combs and covers.

Odd length and narrow-back combs also available on a special basis. Contact your Ibico dealer for details.
