The HS 2000 MGC Manual Business Card Slitter is designed to cut an 8 1/2 x 11 8-up format removing a 1/4" trim from between the cards. It is very easy to operate by simply turning the handle first on the lower unit then placing the slit sheet in the upper unit and turning the handle. No need for a guillotine cutter as this slitter will produce standard size 2" X 3-1/2" cards and remove the trim.
