The Rhin-O-Tuff coil binding system 3000 by PDI ia an electric spiral binding machine designed for efficiency and ease of operation. It is an all-In-one spiral coil punch, inserter, and crimping system.

The Coil Binding System 3000 is designed to electrically punch up to 20 sheets of 20 lb. bond per lift. The vertical punch throat allows you to align, job and insert pages and covers using gravity for the perfect punch each time. Use the touch-button or foot pedal for hands-free punching. Oversized oval punch pins punch larger holes for easy coil threading.

Dual electric coil rollers built right into this unique spiral binding system push the coil binding element easily through the holes in seconds. The Coil Roller Adjustment knob allows the user to insert coil diameters from 6mm to 50mm or documents up to 2" (440 sheets of 20 lb. bond).

The best feature of this all-in-one spiral binding machine: integrated electric coil crimping! Once the coil is inserted into the document, simply place each end into the electric coil crimper and press the foot pedal. The crimper will cut and bend the end of the coil element, ensuring the coil will not unravel from the book. The crimper dial adjusts easily for coil elements from 6mm to 560mm. No more clumsy hand crimpers or separate crimping machines required!

Features

- Oval hole punch allows for easier coil inserting.
- Built-in electric coil crimping up to 50mm, eliminating the need for hand crimpers or an extra machine.
- Full size, dual coil insertion rollers improve binding efficiency.
- Foot pedal control switch for easy, hands-free punching & crimping.
- Open-ended punch throat to punch documents up to 23.4" long.
- One-touch punch and inserters on/off button.

- Coil inserter adjustment dial to easily adjust for varying coil diameter sizes.
- Clear shield holds coils in place while crimping.
- Dial adjusts crimper knives based on coil diameter, ensuring a perfect crimp every time.
- Adjustable edge guides for centered punching and crimping.
- Clear window allows user to view waste drawer for emptying.
- Push and turn margin dial for correct punch margin for each coil diameter.
- Disengageable punch pins to adjust for correct punching any paper width.

Specifications

Maximum Punch Capacity	20 20# sheets
Maximum Paper Size	24 inches
Construction	Metal and Plastic
Punch Type	Electric
Disengageable Punch Pins	All 47
Adjustable Hole Depth	No
Binds Books Up To	2.0 inches
Warranty	1 year
Power	120 V, 60 Hz
Size	12" H x 18.3" W x 18" D
