The PAL-14 Picks-A-Lift is obsolete. It has been replaced by the [ONYX PAL-14 Picks-A-Lift Automated Module](#).

Maximize your production through the consistent picking of paper for punching. In conjunction with the Apes-14, punching productivity outperforms most fully automatic punching equipment. In addition the picks-a-lift offers the flexibility of picking various paper thicknesses, tabs, and other hard to run documents on most automatic punches.

Features

- Uses paper sizes from 8 1/2" x 5 1/2" (140mm x 140mm) up to 8.5" x 14" (356mm x 356mm) legal size including tabs and up to 3 reams at a time
- Able to combine with existing APES-14 attachments
- Fits on any vertical OD or HD series machine
- Provides average paper count accuracy of + or -1 sheet for each lift
- Variable Paper Lift thickness
