The Accunumber Touch is a user friendly high-speed numbering, scoring, and perfering machine. This air fed 18" wide unit is designed to do high-quality numbering and is easily operated by anyone in your shop.

The Accunumber Touch has a sleek design and takes up little space in your shop. It's ideal for shops doing a multitude of jobs and who require automatic feeding of a wide variety stock.

Features

- Air Feed will feed any type of paper including glossy stock. It will reliably feed 16lb. to 16 point.
- It will number 10,000 sheets per hour.
- The touch screen is more reliable than switches and easier to use.
- Pneumatic driven numbering heads are more reliable than solenoid electric. There are fewer parts to go wrong, and maintenance is simpler.
- Simple programming allows you to number, perforate, or score individually or simultaneously.
- Gothic (7) wheel reverse numbering heads offer many repeat sequences: 0,1,2,3,6 and 3 drop zeros.
- Sheet counter to keep track of your job.
- Automatic bottom-of-pile air suction feed.
- Each numbering head can be programmed individually for multiple numbering.
- Numbers virtually anywhere on a sheet, from the leading edge and within 0.01" of a previous number.
- Number single sheets or crash number up to a 10 part carbonless form.
- Patented self inking disposable ink cartridges; no re-inking required.
- Approximately 25,000 impressions per ink cartridge.
- Ink available in red or black.

- **Optional compressor available for shops that do not have an air supply.**
