Extra Bond (EXB) laminating film was specifically designed for modern digital copiers that use fuser oil. It will adhere to large areas of toner and other materials where conventional laminates will fail.

EXB is specially formulated to meet the challenge of emulsion aggregation (EA) toner copiers. It melts at a lower temperature, so there is less chance of heat damage to sensitive originals.

### The Details:

- Rolls are adhesive side in.
- 1" core.
- Clear gloss.
- Applications: Digital prints from Xerox (Docutech and Docucolor), Nexpress, Xeikon, and similar printers.
- Other names include Super Stick and DryLam SAP.

### Features

- 12" x 250'
- Rolls are adhesive side in
