The Sabre 120" utility cutter is obsolete. it has been replaced by the [120" Sabre 2 utility cutter](#).

A handy portable sheet material cutter that can be used on a table top or mounted on its own stand. Cuts a wide variety of sheet material.

Features

- Cuts a variety of mounting boards, straight, square, and clean
- Simple, easy to use design
- Full length silicon rubber grip strip mounted in the base and two more on the underside of the cutter bar holds all work securely in place
- Adjustable blade depth
- Cutter head automatically retracts to a safe position when not in use
- Can cut materials that are longer than the length of the cutter
- Accepts materials of varying thickness without affecting either the line or angle of cut
- Sturdy extruded anodized aluminum base will not absorb moisture or warp
- Base includes a narrow groove to accept the blade tip when cutting
- Optional floor stand (shown above) is available
