Extra Bond (EXB) low melt laminating film was specifically designed for laminating the output of digital copiers. It will bond to digital prints where standard high-melt films will not.

EXB is specially formulated to meet the challenge of emulsion aggregation (EA) toner copiers. It melts at a lower temperature, so there is less chance of heat damage to sensitive originals.

The Details:

- Rolls are adhesive side in.
- 1" core.
- Clear gloss.
- Applications: Digital prints from Xerox (Docutech and Docucolor), Nexpress, Xeikon, and similar printers.
- Other names include Super Stick and DryLam SAP.

Features

- 25" x 250'
- Rolls are adhesive side in
- 1" Core
