This simple and dependable 40" shrink wrapping system is great for low to medium volume packaging operations. Protecting your product with clear film only requires these three simple steps:

[Just insert your product into the shrink film and depress the shrink wrap heat sealing arm, cutting and sealing the film in seconds.](#)

- [Then turn the package 90 degrees and seal the remaining open side of the film.](#)
- [Use the included heat wrap gun to shrink the film up tight around the package.](#)

-
[You'll have the identical appearance and utility of packages wrapped on an expensive production shrink system.](#)
