The GBC Catena 65 Hot & Cold 25" Roll Laminator laminates, mounts and encapsulates your color prints. It uses roll laminating film 1.5"mil to 10mil thick and up to 25 inches wide. The Roll laminators silicon rollers ensure a smooth scratch free lamination of all your prints.

Features

- LCD Display indicates temperature, speed and Ready/Wait condition
- Silicone rubber rollers ensure timely clean-up
- Interlocking feed tray and magnetic safety shield for safe operation
- Designed for thermal or pressure sensitive film up to 10 mil
- Roller gap adjustment handles mounting boards up to 3/16" (5 mm) thick
- Rewind roller peels away pressure sensitive release liner
- Infrared heating coil distributes heat evenly and improves lamination quality
- 8 bit microprocessor temperature control guarantees fast response time
- Cooling fan ensures smooth, flat output
- Exclusive preset temperature and speed settings for each film thickness
- Fine tuning override controls for both temperature and speed for variations in paper conditions
- Infrared heat detection provides instant reaction to heat changes on the silicone rollers
- Max. Roll OD 5"
