Metal squeeze-clips with string are used to hang light weight signs from ceiling grids. Six feet of string, in either black or white, extends from the clip and a barbed end connects to your sign. Available with white or black string.

Features

- Clips are made from zinc-plated steel.
- Clips are 3-1/4" high x 1-1/4" wide.
- Furnished with six feet of polyester string in black or white.
- Sold in packages of 100.
- Simply unwind desired length of string to adjust the sign height.
- Excess string is stored on the hook, making height changes or reuse simple.
- Squeeze the clip open to clear either side of a ceiling grid, then release to close and grip the grid.
- The barbed end slips easily into a pre-drilled or punched hole on your sign, then turns 90° to hold the sign in place.
