Turn your Precision Cutting Bar into a Cutting System. The Keencut Proteus Workbench, combined with the 124" Javelin Integra or the original Evolution cutter, creates the ultimate precision cutting table.

The modular design of the Proteus enables growing businesses to reconfigure and expand their bench as needed – quickly and economically – to work in concert with new demands. No extra tools are necessary, assembly is ultra-simple, and the applications are endless.

Any Proteus Workbench can be fitted with a customer-supplied top of choice – glass, MDF or plywood.*

*Worktop and Javelin Integra cutter are not included. Glass top installation requires optional white silicone cord and four extra end caps.

Features

- Adjustable feet allow the bench to be installed on uneven floors without compromising accuracy.
- Unique leg to beam fixing brackets apply incredible strength to Proteus Benches.
- Create the ideal bench surface using a variety of worktop fixings (worktop not included, 3/4" MDF or finished plywood recommended).
- Unique leg to beam mounting brackets apply incredible strength to the Proteus.
- The Proteus systems allows for a wide variety of customization.
- Proteus Workbench can be used with the Javelin Integra, original Evolution cutter or as a table.
- 5 year general warranty on all parts.
