The **Onyx ONYX HD8370 semi-automatic wire closing machine** closes 3:1 pitch double loop wire in one easy step, eliminating manual insertion of wire into documents. The HD8370 is easily adjustable for varying sizes from 1/4 inch to 9/16 inch. The HD8370 can be used by itself or mounted to any vertical OD or HD punch*.

The Onyx HD8370 offers fast and reliable wire closing without the need to manually hand insert/thread the double loop wire prior to closing it around the document like you do with most electric wire closers. Many other electric wire closers have multiple manual processes including manually lining up the holes with the wire, manually inserting the wire, then keeping it inserted as you move the document to the electric wire closing area to be closed. The Onyx HD8370 removes the need for those manual steps.

*An optional mounting kit is required.

Features

- Closes 3/16" to 11/4" (5mm to 32mm) Twin-Loop Binding Wire.
- Slide Out Table Extension for Handling Long Documents.
- 24" (610mm) Binding Edge.
