**These 3/8" Aluminum Screwposts come in sets of 100. One set is one screw and one post.** 

The 3/8" Posts hole goes all the way through so the screw can be threaded.

3/8" Aluminum screw posts have many uses. Originally used for binding documents, they are also commonly used for connecting leather parts in cases, straps, holsters, tack, and more. Our 3/8 inch aluminum screw posts will securely fasten 3 or 4 thicknesses of 8-10 ounce leather. For maximum strength, the post should be long enough to go all the way through all of the pieces when they are assembled.

Aluminum screw posts have a multitude of other uses as well. They can be used to assemble just about any material that you can drill or punch a 1/4 inch diameter hole through, including plastics, cardboard or card stock, metal, wood, foamcore, and much more. Just push the post through the hole, thread the screw into the post and finger tighten. Your materials are now securely fastened! These Chicago Screws are threaded all the way through the post for greater strength. The screws are the standard length used by all of our longer posts, so they are completely interchangeable. We sell screws and posts together so that you you don't have to worry about matching lengths.

If necessary, [aluminum screw post extensions](#) can be added to the standard [aluminum screw posts](#) to achieve a better fit.

### Technical Specifications:

- The post length is 3/8" and the diameter is 3/16". The post length is the maximum binding

thickness (inside length.) We recommend that you measure your document to obtain the best fit. We also recommend that you punch or drill a 1/4" hole in your documents to accept these posts.

- **Posts** are 3/16" diameter. The overall length of a post with the screw installed is approximately 1/2".
- **Post and screw heads** are 7/16" diameter and 1/16" thick. The screw thread is #8-32.
- 3/8" long **screws** are furnished with all posts.
- **Quantity per package** is 100 sets [aluminum screw posts](#). We can supply larger quantities on request.
- These screw posts can be extended using our [1/4"](#), [1/2"](#), [3/4"](#), and [1" screw post extensions](#).

If you would like to have a different appearance, you might want to look at our [plastic screw posts](#). If you need greater strength to hold large or heavy materials, please consider our [steel screw posts](#). We also have [Colored Aluminum Screwposts](#) in Antique Brass, Gold and Black.
