The Sabre Series 2 GPC 60737 General purpose cutter for media size up to 80" with a 5 year general warranty on all parts (except blades) and a 20 year warranty on the bearings.

Designed to cut a wide range of sheet materials, the Sabre Series 2 GPC 80" Cutter offers a standard of straight, square and clean cutting. It is designed for use on a bench or attached to the optional stand. Sabre Series 2 includes blade depth adjustment and features a cutter head which automatically retracts to a safe position when not in use. The innovative hinge and lift arm mechanism makes it possible to cut materials which are longer than the length of the cutter. It also accepts materials of varying thickness without affecting either the line or angle of cut. Specially styled, the extruded anodized aluminum base incorporates a narrow groove to accept the blade tip when cutting. The new Sabre Series 2 GPC cutting head features a reversible Graphix Blade making it ideal for left-handed and right-handed operators. The blade locking thumb screw adds safety and convenience.

A full length silicone rubber grip strip mounted in the surface of the base and two more on the underside of the cutter bar ensures all work is held perfectly in place while cutting and provides protection for even the most sensitive surfaces.

Specifications

Cut Length	80" inches
Capacity	1/2"
Size	84 1/2"W x 14 1/4"D x 2 1/4"H
